

# **Rules and Definitions**

**All entries for the competition must be the modeller's own work.**

**All models placed in the competition are at the owner's own risk.**

**No responsibility will be taken for loss or damage by the show.**

**Models should be placed in the correct class. If in doubt ask one of the competition staff.**

**A model placed in the wrong class will be placed in the correct class by one of the Competition Secretaries.**

**In a class where there are 4 or more entries Gold, Silver and Bronze medals will be awarded.**

**In a class where there are 3 or less entries the Competition Secretaries will make the award. Not all levels of awards may be made in these cases.**

**The Competition Secretaries decision is final in all Competition matters.**

**Dependent on the number of models entered in a particular class or classes, a class may be subdivided or classes amalgamated, at the discretion of the Competition Secretaries.**

## **Master Class Trophy**

**In any modelling competition certain models are recognized as being above and beyond the abilities of the majority of modellers. If a model is entered in any class that the Competition Secretaries agree belongs in this category, it will be removed from the general competition and placed in a Master Modeller Class.**

**The model will be awarded a Certificate of Merit as a Master Modeller and be judged separately. A single trophy will be awarded for the best in this category, but will not be considered for the Senior Best of Show.**

**Standard Kit(SK)- a single, commercially produced injection moulded plastic, vac-formed or resin kit. Hatches and canopies may be open if this is an option on the kit. Addition of aerials, seatbelts, rigging and wires is permitted,**

**Any Source Detailed(ASD)- a standard kit with additional detail added from commercial sources to enhance the original kit.**

**Any Source Converted(ASC)- a standard kit with additional detail added from commercial/non-commercial sources including scratch built and vac-form parts. A converted model may be detailed to any desired level by the modeller.**

**Diorama- Model/models mounted on a scenic base, with more than one figure mounted on the base, conveying a story, specific theme or a real life situation. Figures placed in the cockpit of an aircraft and inside vehicles are not considered as a diorama.**
